The moment a child receives the diagnosis of a brain or spinal cord tumor, an intense and terrifying journey begins for the entire family. Even with the best medical care available, the process of treatment can be as emotionally distressing and disruptive as the disease itself, with after-effects that linger for years. Many families find themselves lost, unsure of where to seek help or find the programs and services that might alleviate their emotional pain, suffering, and stress. The Making Headway Foundation was created by families who have endured this journey, and now care deeply about supporting other families, providing them with the vital resources they need.

For over 27 years, Making Headway has dedicated itself passionately to the mission of providing Care, Comfort, & a Cure to families impacted by a childhood brain or spinal cord tumor. From the moment of diagnosis through the entire treatment and beyond, Making Headway will always be there for each child, each sibling, and each parent. As always, there is never a cost for families to access our services, programs, and events.

What sets Making Headway apart is our unique and unparalleled commitment to meeting the changing needs of families. None of this remarkable work would have been possible without the unwavering support of generous donors like you. As the need for services keeps dramatically increasing, we need your ongoing and generous support to continue our work.
